## WHY THIS DEAL

1

### Below Replacement Cost

\$300K/unit is below the cost to build new multi-family on a barrier island today.

2

### Walk to Beach

Premium location 2-3 blocks from Gulf beaches commands top rents and resale value.

3

### 4-Unit Diversification

Four separate income streams reduce vacancy risk compared to single-family rental.

4

### Value-Add Opportunity

\$35K/unit renovation drives rent increases of \$400-\$600/month per unit.

5

### STR Upside Potential

Convert 1-2 units to short-term rentals for \$200-\$300/night seasonal income.

6

### Forced Appreciation

Renovations drive NOI growth, creating equity through income-based valuation increases.

## RENOVATION SCOPE (PER UNIT)

- Kitchen refresh — new cabinets, quartz counters, stainless appliances, LVP flooring
- Bathroom updates — new vanity, tile, fixtures, and glass shower enclosures
- Interior paint, new lighting, and modern coastal finishes throughout
- Estimated renovation timeline: 4-5 months for all 4 units (staggered turnover)

## DUE DILIGENCE CHECKLIST

- Current rent roll and lease expiration schedule — confirm income and rollover timing
- Building inspection — roof age, HVAC condition, plumbing, and electrical systems
- Flood zone determination and insurance cost verification for all 4 units
- City STR ordinance review — confirm eligibility for short-term rental conversion
