WHY THIS DEAL

1

Income While You Wait

\$42K/yr in rental income offsets carry costs while you plan the redevelopment.

2

Double Lot (14K SF)

Twice the typical lot size provides a massive building envelope for new construction.

3

R-2 Density

Zoning allows duplex or multi-family, maximizing units and income on the rebuild.

4

Separate Meters

Each unit has independent utilities — clean operations and easy tenant management.

EXIT STRATEGY

- Teardown existing duplex and build new luxury coastal home(s) targeting \$2.2M sale
- Alternative: Hold the duplex and increase rents — STR conversion could yield \$80K+/yr
- Land bank: Continue collecting income while the lot appreciates with the beach market
