STR CASH FLOW OPTION

Rather than flip, this home can generate \$72K+ in annual STR revenue (\$300/night avg, 65% occupancy). After expenses, expect \$35K–\$45K net cash flow while building equity in a prime beach location. Dual exit — cash flow now, sell later at appreciation.

KEY INVESTMENT DRIVERS

1

Low Renovation Risk

Already updated 3/2 — only light cosmetic work needed. Minimal construction risk compared to gut-rehab or new-build projects.

2

Prime STR Location

Steps from Caddy's on the Beach — one of TI's most popular spots. STR guests pay premium for walkable beach locations.

3

Dual Exit Flexibility

Flip for quick profit or hold for STR income. Both strategies work in this location, giving investors optionality.

4

Treasure Island Demand

TI is one of the Gulf Coast's most sought-after beach communities. Limited inventory and strong tourism drive consistent appreciation.

EXIT STRATEGY

- Primary: Cosmetic refresh and resale at \$950K within 4–6 months
- Alternative: Furnish for STR and generate \$72K+/year in gross rental income
- Alternative: Long-term hold with traditional rental (\$3,200–\$3,500/month)
