INVESTMENT THESIS

One block from the Gulf of Mexico in Indian Rocks Beach — the value here is entirely in the land. Tear down the existing structure and build a luxury 2,800 SF coastal home targeting the \$1.8M buyer pool. IRB's no-high-rise character and walkable beach access drive exceptional new-construction demand.

LOCATION HIGHLIGHTS

- One block to Gulf beach — the #1 value driver for IRB new construction
- Indian Rocks Beach — charming beach town with no high-rises, strong identity
- 6,000 SF lot supports a generous home footprint with pool and outdoor living
- IRB new builds 1 block from Gulf consistently trade at \$1.7M–\$2.0M

NEW BUILD PREMIUM

New construction in IRB commands \$625–\$675/SF — well above the cost to build. A 2,800 SF home with modern coastal design, rooftop deck with Gulf views, and pool can push above \$1.9M, generating \$150K+ in net profit on the upside scenario.

KEY INVESTMENT DRIVERS

1

Beach Block Location

One block from the Gulf — new builds this close to the beach in IRB are extremely rare and command premium pricing above \$625/SF.

2

Land Value Play

At \$725K, you're buying the location — the existing structure has zero value. Clean slate for maximum design flexibility and value creation.

3

IRB New-Build Demand

Buyers are willing to pay \$1.8M+ for new construction in IRB's beach blocks. Limited supply of buildable lots creates persistent demand.

4

Gulf View Potential

A 3-story design with rooftop deck can capture Gulf views from 1 block back — a massive value driver that differentiates from ground-level homes.

EXIT STRATEGY

- Primary: Teardown, build 2,800 SF luxury coastal home, sell at \$1.8M–\$1.95M
- Alternative: Sell the cleared lot to a custom builder at \$800K–\$850K for quick profit
- Alternative: Build and hold as premium STR — \$120K+ annual gross revenue
