Legal duplex, both units rented

PROPERTY TYPE

Legal Duplex

2 blocks to beach, income-producing

INVESTMENT THESIS

Legal duplex in Indian Rocks Beach, 2 blocks from the Gulf, with both units already rented. R-2 zoning on a 7,000 SF lot provides income from day one with long-term optionality — hold for cash flow, convert to STR for higher yields, or sell at \$1.2M as IRB multifamily inventory becomes scarce.

LOCATION HIGHLIGHTS

- 2 blocks to Gulf beach — walkable beach access from both duplex units
- Legal duplex with R-2 zoning — increasingly rare on barrier island communities
- Both units currently rented — immediate cash flow from day one
- Indian Rocks Beach — strong long-term rental and STR demand year-round

STR CONVERSION UPSIDE

Converting one or both units to STR operations could push gross revenue from \$60K to \$120K+ annually. Beach duplex STRs in IRB command \$200–\$350/night per unit. The R-2 zoning supports this transition, creating a massive cash flow uplift while building equity.

KEY INVESTMENT DRIVERS

1

Immediate Cash Flow

Both units rented from day one — no vacancy risk during acquisition. \$60K gross annual income covers carry costs immediately.

2

Legal Duplex Scarcity

R-2 zoned duplexes in IRB are extremely rare. New multifamily isn't being built on the barrier island — this is a disappearing asset class.

3

STR Conversion Option

Convert one or both units to STR to double gross revenue. Beach duplexes have unique STR appeal — families love the extra space and privacy.

4

2 Blocks to Beach

Walkable Gulf beach access from both units. This proximity drives both long-term rental demand and premium STR nightly rates.

EXIT STRATEGY

- Primary: Hold for cash flow at \$34K NOI, sell at \$1.2M in 12–24 months
- Alternative: Convert to STR — \$120K+ gross revenue, sell as turnkey STR asset
- Alternative: Renovate both units and sell as updated beach duplex at \$1.2M+
