

LA GALA CONSTRUCTION

in partnership with a FL State Certified Engineer

Does your building pass OSHA's fall-protection rule?

29 CFR 1910 Subpart D applies to nearly every commercial property in Florida - and it has been in full effect since 2017.

FREE WALKING-SURFACE ASSESSMENT

lagalacon.com

Licensed FL General Contractor · CGC059211

Know where you stand - before an inspector does.

Falls are the #1 cause of worker death. An unprotected edge or uncertified anchor is a liability the moment it is found.

We do the concrete, coating & waterproofing work - including Complete Building Code Compliant Recertifications; a FL State Certified Engineer seals the engineering certification.
